

What directory to back up everyday or periodically

1. A Sample Directory Structure.

/var/lib/freeswitch/recordings/{domain_name}/archive/{year_date}

The screenshot shows a file manager window with the address bar displaying the path: /var/lib/freeswitch/recordings/pbxpcpgyn.urology.dev/archive/2025/Jul/. The main content area displays a table of files and directories.

Name	Size	Changed	Rights	Owner
 ..		7/16/2025 4:22:48 PM	rwxr-x---	www-
 16		7/16/2025 4:52:28 PM	rwxr-x---	www-
 17		7/17/2025 4:16:41 PM	rwxr-x---	www-
 18		7/18/2025 4:57:05 PM	rwxr-x---	www-
 21		7/21/2025 4:48:19 PM	rwxr-x---	www-

What directory to back up everyday or periodically

2. Which directory to backup

- A. `/var/lib/freeswitch/recordings/pbxpcpgyn.urology.dev/archieve/{year_date}`
- B. `/var/lib/freeswitch/recordings/pbxuid.urology.dev/archieve/{year_date}`
- C. `/var/lib/freeswitch/recordings/pbxuidav.urology.dev/archieve/{year_date}`
- D. `/var/lib/freeswitch/recordings/pbxuidnb.urology.dev/archieve/{year_date}`
- E. `/var/lib/freeswitch/recordings/pbxpain.urology.dev/archieve/{year_date}`
- F. Etc.

What directory to back up everyday or periodically

3. Same timestamp (UTP-8 Current set PDT – Must auto adjust due to summertime)
4. Create a sFTP account separately on each
5. Local Server – Install & run an IIS as a webservice
6. Create a simple website (directory) html
7. Create a password protected webservice-folder, so eliminate the access.
8. Restricting only local ip address to login such as
(192.168.1.x – 192.168.7.x – 192.168.9.x)

What directory to back up everyday or periodically

9. After backup

A. Server Directory must be empty.

B. The Time to backup must be 12:01AM once a week? ←- need to discuss
